Our Company

Y. Skembedjis & Sons Ltd was established in Famagusta 1971, by Yiannakis Skembedjis. Y. Skembedjis & Sons Ltd has initially only provided services of hiring forklifts. After the passing of the years and now well established in Limassol and Nicosia, the company is selling, repairing, renting and servicing any kind of warehouse handling equipment, both used and new, in local and foreign markets. It is the modern version of the traditional family business. In addition, the company is involved in training and thorough examination activities.

Our main goal is to provide heavy machinery with maximum customer satisfaction by offering the highest quality products and services at a low cost tailored to each customer's needs.

At our warehouses in Limassol and Nicosia, we hold a constantly rotating stock of around 150 machines at any time, comprising of most major brands with specifications to meet the demands of our customer base.

Our Alliances

Clark Material Handling Equipment

Duisburg, Germany

Clark Material Handling Company (CMHC) is the world's first producer of an internal combustion-powered industrial truck. For the past nine decades; Clark has been one of the industry's most progressive and responsive manufacturers, continuously seeking innovative ways to improve product, expand service and provide value to its customers.

HC Material Handling Equipment

Hangzhou, China

Hangcha Group Company Ltd, is a major enterprise in the forklift equipment manufacturing industry of Zhejiang Province and is a leading forklift manufacturer in China.In addition, Hangcha is one of the top 500 large enterprise groups in China.

EP Material Handling Equipment

Hangzhou, China

EP begun as a specialized producer of Material Handling Equipment and OEM products for the worldwide market, after 20 years of development EP has grown into a manufacturer that will not only supply a global range of material handling equipment but also provide excellent after sales services.

Easyramps Mobile Containers

London, United Kingdom

Easyramps is an official manufacturer of ramps; combining only the highest standards in quality materials and construction, engineering and after-sales service. The company's models are unique in construction and engineering. The side profiles of all models are constructed from a single piece of steel giving a ramp the highest levels of performance, durability and safety.

Racoon Skid Steer Loaders

Zhejiang Province, China

The sole legal owner of the Racoon brand is Zhejiang Herotime Machinery Co. Ltd; a well known production base for skid steer loaders and mini loaders in China. Racoon products are used in various working conditions in farmlands, urban infrastructure construction sites, roads and expressways, workshops and warehouses, yards, mines, ship decks and cabins.

A.T.I.B Elettronica

Barbarica, Italy

ATIB Electronics was established in 1989 and Is a manufacturer of chargers for any battery type and technology, focusing on Motive Power. Furthermore, ATIB is the official supplier of OEMs in the fields of battery/forklift/cleaning, scissor lifts and electrical vehicles

EnerSys Hawker Batteries

Switzerland

Hawker Motive Power is part of EnerSys, the world leader in industrial batteries; with activities covering reserve power (standby batteries for telecoms, UPS etc), defense, and motive power (traction batteries and chargers). They are the largest European manufacturer of industrial lead-acid batteries, and have locations and service networks spanning Europe, Africa, Middle East - and the rest of the world.

Our Alliances

ITSSAR - The Independent Training Standards Scheme and Register

Bracknell, United Kingdom

The Independent Training Standards Scheme and Register (ITSSAR) is a self financing and non-profit making organisation, formed to offer accreditation to training instructors and organisations supplying industrial truck and construction training services to industry. ITSSAR also has an ongoing programme monitoring training and safety to maintain and improve standards where necessary, in the operation of industrial trucks.

FLTA - Membership of the Fork Lift Truck Association

London, United Kingdom

The Fork Lift Truck Association provides you with a cost-effective way to stay up-to-date on the latest developments in the materials handling industry. It grants you access to the most authoritative and definitive FLT Health and Safety information, best practice advice and Codes of Practice. Furthermore, the membership also grants you access to a network of the most respected and trusted companies in the FLT industry Insider knowledge, publicity and free, in-depth resources designed to help you work safer, faster and smarter.

GEX Series | 4-Wheel Electric

| Machine Info

GEX16	GEX18	GEX20s	GEX20	GEX25	GEX30	GEX40	GEX45	GEX50
1600 kg	1800 kg	2000 kg	2000 kg	2500 kg	3000 kg	4000 kg	4500 kg	5000 kg
48 V	48 V	48 V	80 V	80 V	80 V	80 V	80 V	80 V

Wet and uneven floors, and tight working environments are not a problem for the **GEX** Series, just enjoy the exceptional performance and maneuverability. Various options ensures that you will always have the right truck for your working conditions. The low step height means frequent entry and exit is easy and less tiring for the operator. Superelastic tyres provide a soft ride and allow for indoor/outdoor operation.

GTX Series | 3-Wheel Electric

| Machine Info

GTX16	GTX18	GTX20s
1600 kg	1800 kg	2000 kg
48 V	48 V	48 V

Wet and uneven floors, and tight working environments are not a problem for the **GTX** 3-wheel trucks. Just enjoy the exceptional performance and manoeuvrability. Various options, like cabins or mini-levers, ensure that you will always have the right truck for your working conditions. The 90o turn steer axle on the **GTX** allows for the tightest turn in the industry. Having the pivot point centered between both drive wheels while using dual motors, the **GTX** provides the tightest possible turn radius.

The **R Series** Internal Combustion Counterbalance Forklift Truck is ergonomically designed, providing high working efficiency, as well as reliable and durable operation. Designed with long wheelbase, the whole vehicle achieves better longitudinal stability and residual capacity at the same lifting height than the former model. This also helps to prolong the working time of rear wheel because of the reduced rear axle's load.

Brand New & Used Reconditioned Truck Mounted Forklifts

Truck Mounted Forklift | Machine Info

Capacity: Adjustable
Lifting Height: Adjustable
Motive Power: Diesel

Truck mounted forklift allows hauliers to have complete autonomy when making deliveries and loading up in semi-urban areas. Compact and light, it easily attaches to the back of lorries and can be fitted using any coupling kit available on the market.

Telescopic Truck Mounted Forklift | Machine Info

Capacity: Adjustable
Lifting Height: Adjustable
Motive Power: Electric

Truck mounted forklift can easily be attached to the rear of a lorry. It is particularly designed with industrial usage in mind. Its compact frame and driven front wheels can easily adapt to serviced land and semi-urban environments, whilst the telescopic boom with lateral movement can manage a range of different loads.

Battery Regeneration

Is Your Battery's Life Cycle Bad?

At **Y. Skembedjis & Sons** we provide Battery Battery Regeneration for Electric Forklifts. Through the use of our **Battery Discharger** and **Battery Regeneration Station** we are able to extend your battery's capacity up to **30%** more! Furthermore, you also receive a detailed **Report** showing the improvements made on your Forklift's Battery.

Repairs

At **Y. Skembedjis & Sons** we took the time and effort to create a workshop that is fully equipped as well as manned with highly skilled and professional individuals dedicated to forklift and material handling machinery repairs. Additionally, we offer repairs on site on our mobile repair vans with qualified staff helping you reduce the costs of service and maintenance whenever possible. We also rent and sell forklifts meaning that maintenance is a huge part of our business. With our experienced engineers and fully equipped facilities we ensure you that we can fix **ANY** issue you may have with your forklift and even complete engine restorations.

Maintenance Agreement Contracts

The machines covered by a maintenance agreement are serviced on a regular basis and not only after a breakdown. **Full Regular Service** is the most comprehensive service program ensuring the most uptime from your equipment. This is done by completing all factory recommended services at the proper intervals. It is designed with budget in mind and allows fixed cost of repairs for a period of time appointed from your company.

HEALTH & SAFETY

THE SAFE WAY
IS THE BEST WAY

Health & Safety

Course Aims ✔

- To teach necessary skills and relevant job safety.
- To acquire knowledge required for the safe operation of the machine.
- To encourage future good practice in order to maintain and promote these skills.
- To create a safe working environment and procedures within the working area of the machine and its operator.
- To provide greater productivity and cost saving as a direct result and maintenance of the training standards.

Certification

Safety

Health

Operator Training

Training Aims ✔

- To provide a significant saving in costs through training, by reducing damages on the machine, the load and the facilities' equipment.
- To teach the main requirements in terms of skills and knowledge that are essential for a safe and efficient operation of the elevating machines.
- To conform with all relevant statutory procedures (e.g. Health & Safety at Work Act 1974 and approved codes of practise)

Our Training Centre in Fragklinou Rousvelt, Limassol, Cyprus

Training Center

Our Training Centre in Fragklinou Rousvelt, Limassol, Cyprus

We would like to introduce you to our training center which is an accredited center by **ITSSAR UK** which provides training courses which aims to make trainees to become safe, qualified and efficient operators in order to be able to follow all company **Health & Safety** guidelines laid down. In additon the courses help the trainees to operate a forklift truck in a safe and efficient manner and to understand fully how a forklift truck operates, including Instability, Counter-balance and to promote future skills and good practice in work areas.
ALL COURSES CAN BE SPONSORED BY ANAD.

Thorough Examination | Forklifts

Thorough Examination is a vital safety inspection. If you are the operator of a forklift truck, even if you are only hiring it, it is your obligation to make sure it holds an up to date Report of Thorough Examination. It is up to you to arrange for a Thorough Examination at least every twelve months – it is the responsibility of the user, not the hire company.

Thorough Examination is a bit like a car MOT – it sets the standards to say that all the aspects that are connected with safety have been inspected and assessed as being safe at the time of the test.

Y. Skembedjis & Sons Ltd is an accredited **Thorough Examination** Company in Cyprus by the **Fork Lift Truck Association**. It is specialized in servicing of all makes of machines, with mechanics clocking up many years of experience between them. All engineers are multi-skilled and our company has a high professional reputation in the service industry.
